GlobalCapture eBX simplifies document centric tasks by creating highly efficient workflows that start at the touch panel of your eBRIDGE enabled Toshiba Multifuntional Device

- Secure document capture locally or to the cloud
- Rapid location of filed documents through stored searches
- Direct document printing from the results of a search
- Advanced data extraction for automated records filing or information sharing

Streamline the flow of business information in your office by leveraging the power of GlobalCapture directly from the touch panel with your eBRIDGE enabled Toshiba device. The user-friendly interface of GlobalCapture eBX with QuickSearch provides users with the tools to automate image capture, optimize batch scanning, enhance image quality, route documents, extract high value data, use OCR to convert images to text searchable PDFs and release your documents directly to SmartSearch – either onsite or in the cloud.

Document Capture & Processing

Capture	documents from your multifunctional printer, scanner, email or even a watched network directory
Optimize	batch scanning jobs with document separation through OCR, Bar Code, Page Count or Blank Page separation
Enhance	image quality as documents are being captured including color drop out, auto cropping and noise removal

Data Extraction & Routing

Extract	data with OCR or Bar Code Recognition for automating filing or to share with other line-of-business applications
Convert	images automatically to text searchable PDF's on the fly as they're captured from your eBRIDGE enabled Toshiba MFP
Release	documents to SmartSearch, either onsite or in the cloud
Route	documents to other SmartSearch users for review, approval or notifications

GlobalCapture eBX with QuickSearch is a simple yet powerful solution for streamlining capture workflow activities and making them accessible from the touch panel of your eBRIDGE enabled Toshiba multifunctional printer. With GlobalCapture eBX anyone with access to the MFP can initiate a workflow that captures images, extracts high value data and notifies users of a pending workflow activity. **The result is an office environment that's less complicated, more efficient, and more profitable.**

Less	**More**	**More**
Complicated	**Efficiency**	**Profits**

Not only can you capture images at your eBRIDGE enabled Toshiba device, but through QuickSearch a user has the ability to search against the SmartSearch database, preview and print documents right from the touch panel.

Easy Set-Up

Create your capture workflow through our easy drag & drop design tool

● Select your import method
● Choose your document actions
● Define your release point
● Save your workflow

QuickSearch eBX

Need a document in your SmartSearch database? There's no need to return to your desk

Quickly search, preview and print your document right from your Toshiba eBRIDGE enabled device

All-In-One

Providing multiple touch points for the capture and access of business critical information right from the touch panel of your Toshiba eBRIDGE enabled device

With GlobalCapture eBX, advanced features such as **image enhancement, document separation, barcode recognition, approval routing** and **email notifications** are at your fingertips. Through its dynamic integration with SmartSearch, GlobalCapture eBX provides a **real-time capture solution that improves collaboration while sharing document information** with other business applications.
